### **DETAILED ACTION**

After further review of the previous Office action, it was discovered that Group B and Group C listed the exact same claims. In light of Applicant's election of Group C, it was deemed necessary to send out a corrected Election Restriction.

#### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- Group A, claim(s) 17-24, disclosing the special technical feature: a removable fence.
- Group B, claim(s) 25-34 and 43, disclosing the special technical feature: a detachable saw unit and saw dock.
- Group C, claim(s) 35-42, disclosing the special technical feature: the combination of a detachable saw unit, saw dock, a removable fence, and, and a clearance void.

2. The inventions listed as Groups A, B, and C do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group A is a cutting tool with the special technical feature of a removable fence. Group B is a cutting tool with the special technical feature of a detachable saw unit and saw dock. Group C is a cutting tool with the special technical feature of the combination of a removable fence, detachable saw unit and saw dock.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason Prone whose telephone number is (571)272-4513. The examiner can normally be reached on 7:30-5:00 (M-F).
